Network monitoring and management	<b>24</b>	85.7%
Virtualisation	<b>19</b>	67.9%
Windows Server	<b>22</b>	78.6%
Linux mail server configuration	<b>17</b>	60.7%

**Any other trainings that you can suggest or recommend?**

Website and database
Mikrotik Routing and Switching
IP PBX
SAS
ospf and bgp in mikrotik
Networking
JavaScript
Active Directory
Mostly is Network Security

Ccna

computer maintainance

Hp Poe switch

Computer hard ware

Mikrotik and Huawei Devices

Php/Sql/ VB 2010-2015/Sql

PHP/MySQL, VB 2010-2015/MySQL

IPv6

no

Comfortable with the current plan

Programming

Windows

Mikrotik

Automation, Provisioning & Configuration Management using tools such as ansible, puppet, chef, e.t.c.

no

Network Optimization

Linux Server Administration

ICND 1&2

Routing - MPLS

### Any suitable days?

Weekdays from 5-7pm twice a week	<b>12</b>	41.4%
Saturdays from 10:00 to 2:00pm every fortnight	<b>21</b>	72.4%
Weekdays from 5-7pm twice a week	<b>12</b>	41.4%
Saturdays from 10:00 to 2:00pm every fortnight	<b>21</b>	72.4%

### Would you be able to train others to benefit from you experience?

YES	<b>21</b>	72.4%
NO	<b>8</b>	27.6%
YES	<b>21</b>	72.4%
NO	<b>8</b>	27.6%

### What is your area of expertise?

Networking
System Administrators
TECH Support
Linux
ICT in general
Wireless Network-Installation and troubleshooting,Routing and Switching
Tech Support

Networking and pc repair

Software

Maintance and repair

Networking, System Administration and Cyber Security

Linux Servers Networking Network monitoring Virtualization Security

Programming (PHP, C#,python)

Windows servers

Electronics and Telecom

System administration

Linux Systems Administration

Error Correction

IT Network Administrator

Network Monitoring and Management

- Web Servers - Industrial Electronics & General IT

## Any other suggestions?

No

NONE

I will involve in training Linux classes

there should be optional informal session aside from the specified time for peer discussions on subject matters & AOBs.(out of this we can identify other potentials subjects and expertise)

Mikrotik Routing and switching

My Suggestion is that ,after each training it should be an assignment on what we have been trained

Please i would suggest to have Practical work so we can learn by doing things. Thanks

Please Training be based on Practical.

Integrate programming courses

Team work

Practical oriented lessons would be of great deal...Lecture notes/content should be shared before the date of training to allow trainees go through them, so that training time is not wasted in theories. I will attend if i happen to be in Arusha then.
